

Westlands has developed into the UK's largest commercial growers of cut micro leaf and speciality produce. With a range of produce unrivalled in quality, consistency and diversity.

Our philosophy is simple; to grow speciality fresh produce using methods that continually enhance quality whilst surprising and delighting consumers.

Growing this way allows us to do something new and different every day, amazing customers with

our lateral thinking and constantly developing ranges of products. None of this is possible without the dedication of the team at Westlands, they love a challenge and all the products we grow are produced with innovation, inspiration, amazing tastes and flavours.

Working closely with quality focused chefs, food service businesses, retail customers – who all demand novel, original and modern fresh produce products, our sole aim is to provide great tasting innovation!

Peashoots & Baby Watercress

Westlands Peashoots and Baby Watercress are an integral part of our Micro Leaf and Growing collections. Westlands Peashoots have an intense natural flavour of a just "popped" pea, our Baby Watercress has all the flavour of watercress but with no waste. They both make wonderful additions to salads.

- 1 SALAD PEASHOOTS
- 2 TENDRIL PEASHOOTS
- 3 BABY WATERCRESS

Microleaf

Micro Leaves are exactly as they are described. Very young, small leaves harvested at seed leaf or first true leaf stage. They are packed with flavour and will add an extra dimension to salads or that magical touch to complete a dish.

Used and eaten whole, our range of Micro Leaf is cut for you so there is almost no preparation and very little waste.

Westlands Micro Leaf range is grown year round right here in the UK.
